QUICK START GUIDE

# Sonoff Zigbee Bridge Pro Gen2

Zigbee 3.0 gateway with Matter bridge · ZBBridge-PR2

Manufacturer: **Sonoff** · Model: **Sonoff ZBBridge-PR2**

**PRODUCT IN THE HOMESYSTEM E-SHOP**

**obchod.homesystem.sk/en/sonoff-zigbee-bridge-pro-gen2--matter/**

This guide belongs to a product purchased at obchod.homesystem.sk. Scan the QR code for up-to-date information, accessories and advice.

The bridge connects up to 128 Zigbee devices to the eWeLink app and, via its Matter bridge, makes them available in Apple Home, Google Home, Alexa and SmartThings. Local scenes and the audible alarm keep working without internet.

## BASIC INFORMATION

| | |
|---|---|
| **Model** | ZBBridge-PR2 |
| **Power supply** | 5 V⎓ 1 A, USB-C (1 m cable included, adapter not included) |
| **Wireless** | Zigbee 3.0 (IEEE 802.15.4), Wi-Fi 2.4 GHz (802.11 b/g/n) |
| **Devices** | 64 direct, up to 128 with Zigbee routers |
| **Matter** | Matter bridge for Zigbee devices (not a Matter hub) |
| **Dimensions / weight** | 62 × 62 × 20 mm / 37.5 g; white, PC |
| **Environment** | −10 to 40 °C, 0–90 % RH non-condensing, indoor only |
| **Package contents** | bridge, 1 m USB-C cable, reset pin, quick guide |

## SAFETY INSTRUCTIONS

**CAUTION**

- Use a 5 V⎓ min. 1 A adapter and operate only in dry indoor areas. Do not disassemble or cover the bridge.

## BUTTON AND INDICATORS

| | |
|---|---|
| **Button – hold 5 s** | pairing mode (add to eWeLink) |
| **Button – hold 10 s** | delete all Zigbee devices / factory reset (indicator flashes rapidly 5×) |
| **Blue (Wi-Fi): 2 short + 1 long** | pairing mode |
| **Blue (Wi-Fi): steady** | paired with eWeLink |
| **Green (Zigbee): slow flashing** | pairing Zigbee devices |

## FIRST START

1. Download the eWeLink app and connect your phone to the 2.4 GHz Wi-Fi the bridge will use.
2. Connect power. On first power-up the bridge enters pairing mode – blue flashes 2 short + 1 long.
3. In the app tap “Scan”, scan the QR code on the bridge, select “Add Device” and follow the app.

**NOTE**

- If the bridge is not added within 10 minutes, pairing mode ends – hold the button for 5 s to re-enter it. The bridge does not create its own Wi-Fi hotspot and does not support 5 GHz.

## ADDING ZIGBEE DEVICES

1. In eWeLink open the bridge and tap to add a device – the green indicator flashes slowly.
2. Put the Zigbee device into pairing mode according to its manual.
3. Wait until the device appears in the app and confirm it.

## MATTER: APPLE HOME, GOOGLE HOME, ALEXA

1. In eWeLink open Device Settings – Matter – Matter Setup and tap Start Setup.
2. In a Matter-compatible app scan the QR code shown or paste the setup code.
3. Under Matter – Sync Bridged Devices choose which Zigbee devices appear in Matter.

**NOTE**

- You need a Matter controller on the same network (e.g. HomePod, Apple TV, Nest Hub, Echo). The bridge exposes only Zigbee devices to Matter; it cannot control Matter devices.

**Disposal:** A product marked with the crossed-out wheeled bin symbol must not be disposed of with household waste. Take it to a WEEE collection point or return it to the retailer when buying a new device. Dispose of batteries separately at a battery collection point.
**Important:** this quick guide in English was prepared by HomeSystem s.r.o. for customers of the obchod.homesystem.sk e-shop based on the manufacturer's documentation. In case of discrepancies, the manufacturer's original manual prevails: https://support.sonoff.tech/zb-bridge-pr2-usermanual/
