This guide belongs to a product bought at obchod.homesystem.sk. Scan the QR code for current information, accessories and advice.

A battery-powered Zigbee sensor that detects a water leak and sends a notification to the Nous Smart Home app.

KEY FACTS

Connection	Zigbee (Tuya-compatible gateway required)

SAFETY INSTRUCTIONS

WARNING

- Read the manual. Use the device within the temperature and humidity limits given in the manufacturer's data sheet.
- Do not install it near heat sources (e.g. radiators), do not drop it and do not subject it to mechanical stress.
- Do not use chemically active or abrasive cleaners – use a damp cloth.
- Do not disassemble the device yourself – diagnostics and repair must be done only by a certified service centre.

CONNECTING VIA A ZIGBEE GATEWAY

1. Install the **Nous Smart Home** app (Google Play / App Store), grant it all requested permissions and register a new user.
2. Make sure the Zigbee gateway is added in the app and online. On its home page tap “Zigbee Smart Gateway” and add a sub-device (“+”).
3. Remove the battery insulation sheet and hold the reset button for **5 seconds** until the blue LED blinks. Then tap “LED already blink” in the app.
4. After a few seconds the device appears in the app – you can rename it.
5. Put it in the place you need.

BUTTON AND INDICATOR

Hold 5 s (hidden button)	reset / enter pairing mode
Indicator blinking	the sensor is in pairing mode
Indicator off	standby

REPLACING THE BATTERY

Open the back cover, insert a new battery observing the polarity (+/−) and close the cover.

NOTE

The manufacturer notes that the internet connection cannot be guaranteed in all cases – it depends on the quality of the communication channel and network equipment, the make and model of the mobile device, the operating system version, etc.

Disposal: A product marked with the crossed-out wheelie bin symbol must not be put in household waste. Hand it in at an electronic-waste collection point or to the seller when buying a new device. Hand in batteries separately at a battery collection point.
Important: this short guide in English was prepared by HomeSystem s.r.o. for customers of the obchod.homesystem.sk e-shop based on the manufacturer's documentation. In case of differences, the manufacturer's original manual prevails.
